TO FIGHT RATE REDUCTION.

(By Associated Press.)

Atlanta, Ga., April 12.—Georgia railroads are planning bitter opposition against any lowering of the present tariff schedules and it is expected that this opposition will first make itself manifest tomorrow when the state railroad commission will take up the petition of the Georgia Farmers' union asking for a reduction in railroad passenger rates. It is understood that it will be contended by the roads that the railroads of the South in general and of Georgia in particular will not be able to bear any reduction of rates on account of present conditions, especially the heavy increase in operating expenses. The Farmers' union desires a flat 10 per cent rate, though it leaves the 10 per cent of the reduction entirely with the state commission.

A MODERN LUCREZIA.

(By Associated Press.)

Berlin, April 12.—Frau Ernestine Feige, of Guman, in the Silesian Mountains, has been condemned to death for poisoning a man named Jantsehek, and a woman named Bruckner, who had lived with her as lodgers. She was also charged with poisoning in four other cases, two of her alleged victims being her mother-in-law and sister-in-law, but as these four cases went back seven years there was some uncertainty as to whether the exhausted bodies showed traces of poison.

Frau Feige has been called the

Messian Lucresia Borgia, and the trial revealed that she had many points in common with the famous Roman poisoner. In all the cases it was the desire to become possessed of her victim's money which drove her to her terrible crimes. She used arsenic in all cases, in this displaying great cunning, for the entire district in which she lived is arsenic producing, and the graveyard in which her victims were buried was in special degree impregnated with arsenical ores.

CELEBRITIES CONTINUED.

(By Associated Press.)

Pittsburg, Pa., April 12.—The ceremonies attending the dedication of the Carnegie Institute were continued this morning with the presentation of addresses of congratulation from universities and learned societies throughout the world. Those taking part in the program included the presidents of other representatives of more than two-score of American colleges and scientific societies and several in Europe.

One of the most notable features of the entire programme will be the banquet at the Hotel Schaefer to-night in honor of Mr. and Mrs. Andrew Carnegie. Covers will be laid for 200 guests, and the invitation list has been limited almost exclusively to the guests of honor at the dedication of the Carnegie Institute, including the party of 40 notables from Europe, and their wives and other members of their families who accompany them.
